Editorial

The last few months at Presidency International School have woven a rich and magnificent tapestry, woven with threads of triumph, excellence, and the milestones that define us as a community of brilliant learners. It has been a celebration of academic prowess and a glorious commemoration of the achievements that have set us apart as a beacon of knowledge and wisdom.

The 25th Anniversary of Presidency International School was a magnificent tribute to our resilience, gathering of scholars, students, and staff to bask in the radiance of a quarter-century of educational accomplishments and student triumphs. The festivities were ablaze with euphoria, revelry, and an indomitable sense of pride. Meanwhile, we paid tribute to our beloved **Principal, Lt. Col. (Rtd.) Md. Ziauddin Ahmed; Bir Uttam** for the shining light that he has showed Presidency in education and also for his great contribution in the liberation war.

As the calendar progressed, so did our celebrations. December descended upon us with the observance of Victory Day, a day of dignified reflection upon the valiant heroes who fought for our independence. Our students honoured their sacrifices with respect, reverence, and were reminded of the importance of tenacity and unwavering resolve.

The Annual Sports was a celebration of athletic prowess, as our students took to the fields and arenas with unwavering determination and a camaraderie that knew no bounds.

We are proud to announce that our students Tasnim Reza Aritra & Raima Nawal reached the zenith of success in the Cambridge Curriculum, securing the country highest score in the O&A Level Exams for Bengali and Computer Science, a testament to the arduous effort and perseverance of our students and teachers.

The skills of our students in the art of essay writing were also put on display, as one of our own Sumehra Tazreen was selected as a Gold Finalist in the Commonwealth Essay Achievement. We bask in the glory of having the opportunity to showcase the boundless talent and potential of our students on a global stage.

Our students ventured forth to explore new horizons, participating in Owlypia Global and the Singapore Science Camp, broadening their perspectives, and immersing themselves in new cultures.

In essence, the past few months have been a whirlwind of academic achievements, athletic triumphs, and celebratory events. As we look ahead to the future, our hearts are filled with excitement and anticipation for the opportunities and challenges that await us.

The grand Silver Jubilee of Presidency

The Silver Jubilee of Presidency International School was held in a grand fervour and festivity in three school premises.

The programme was presided over by veteran freedom fighter and school Principal Lt. Col. Mohammad Ziauddin Ahmed Bir Uttam and Rector, Presidency Education, Dr. Imam Hasan Reza. The Chairman, School Academic Management, Mr. Ashraful Hoque Khan Swapon spoke on the occasion in presence of students, teachers and members of school academic management while the Rector and three Vice Principals joined in reminiscing the past memories with staff, officers, alumni and teachers who have been with the school from the inception. The epic programme ended with paying tribute to our long-standing Principal sir, releasing colourful balloons and cutting cakes in three campuses.

Celebrating glorious 25th Anniversary in Junior School

With much splendour and amidst festivity, the Presidency Family gathered in the Senior School premises to mark the birth anniversary of the valiant freedom fighter and national hero, our beloved Principal, Lt. Col (Rtd.) Mohammed Ziauddin Bir Uttam. On this special day, we pray for his prolonged life with sound health. The school academic management members, teachers, students and staff were present in the programme and congratulated him with a bouquet of flower, cutting birthday cake chanting 'Happy Birthday' song and a painting was gifted as memento. Honourable chairman, Presidency School Academic Management, Mr. Ashraf ul Hoque Khan Showpan and Dr. Imam Hasan Reza, Rector, Presidency Education, with a high praising tone briefed the incredible journey of this great man to the audiences and opined optimistically that the light house would continue to enlighten us in future too.

Owlypia Globals London 2022

Team Owlypia successfully participated in the global round of the Intellectuals' Challenge Owlypia 2022 held in London. The competition was held from October 17 to 19 at North London Grammar School. A team of 14 competitive students from Presidency International School showcased their excellent performance on an international platform. Team Owlypia of Presidency bagged 2 gold medals, 5 silver medals and 16 bronze medals from the competition. It was a matter of pride when Presidency Team A became the 2nd Best Team from the Owly group, worldwide. The students were not only engaged with exhibiting their debating and writing skills, but were also treated with a fun explorer trip by Owlypia. They visited several landmarks of London such as- the famous Tower Bridge, the London Eye, Big Ben, Madame Tussauds and the University of Cambridge which offers myriads of majors to pursue higher education.

With that, they also visited 10 more colleges at Cambridge among which King's College, Trinity College, Queen's College were the greatest attractions. The team also spent a wonderful time exploring the Royal Observatory of Greenwich University. Besides, they were amazed by the serenity of the famous River, Cam. Overall, it was very educative yet a very fun experience for the students.

National University of Singapore

Singapore International Science *Camp*

Mirza Humaira Siddiqua
A2 Level

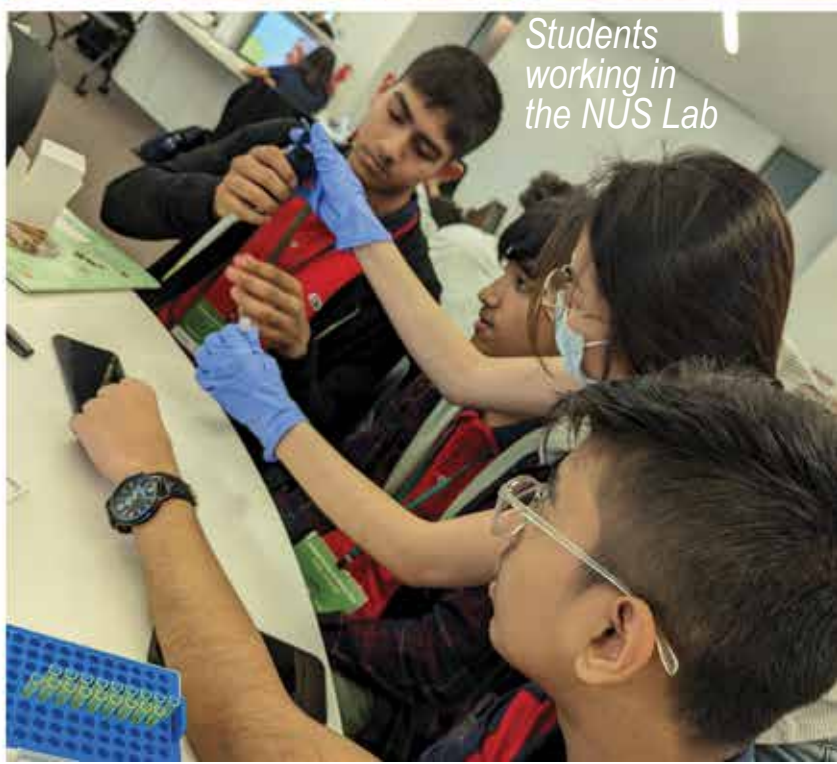

I don't know how 2022 was for everyone but it wasn't going so well for me. However, just a trip to Singapore made my year the best. This is all about the Singapore International Science Camp, held at the National University of Singapore, an institute for learning sciences and technology. This programme was aided by the Asia Pacific Centre of Management Education. The objective of this programme was to motivate and inspire young students, expose them to current technologies, highlight the interdisciplinary nature of science, provide a platform for scientific discussions, foster interaction amongst students from different backgrounds, and experience University life. The highlights of the programme were the lectures, hands-on workshop, science discussions, field visits, and the science quiz. This science camp attracted a total of 161 students from four different countries including Bangladesh, India, Indonesia, and Singapore along with 15 different nationalities.

All the participants were divided into 5 groups; each group consisting of 32 students. A total of 23 students of Presidency International School participated. They were divided into 2 groups: group B and group D. The five groups were assisted by 5 coordinators. Group B got Ma Dongdong (an NUS student from China) and Group D got Ignatius (an NUS student from Singapore).

It was a five-day long programme (from the 19th to the 23rd of December) and every single day was fully packed with activities. We set out our wings on 17th December at noon and set foot in Singapore early in the morning of 18th December. On the 18th, the coordinators picked us up from the Changi airport and took us to the university town and helped us with the room cards and name tags and also briefed us about the auditoriums and cafeterias and thus, we were set for the day. The real programme began on 19th December. We were welcomed into Shaw Foundation Alumni House Auditorium where we were briefed about the evolving science by Prof. Laksh and Introduction to robotics and AI by Prof. Marcelo. We visited the science centre, and got the experience of some cool experiments while experiencing a fire tornado. In the evening, we went out for the humongous city tour of Singapore. We were assigned different tour guides for different schools. We visited

Chinatown and Marina bay and learned a lot about the history and culture of Singapore. On 20th December, we started our day with a lecture on the advances in the field of medicine and surgery at Ngee Ann Kongsi Auditorium. We watched videos of real surgery and learned about a plethora of operations and the life of a Surgeon. We had our science cafe (a discussion on various topics by the students). I was the scrip, basically gave a presentation on a topic that we discussed for a while and it was really great as I got to open up and represent my nation. We ended our day with a hands-on DNA workshop. We got to test our own DNA with modern technological scientific pieces of equipment and I got to know that I am a morning person.

On 21st December, we went on our NEWater plant visit. That's a water recycling plant and it's so huge. The guide explained us every single process they take to make the water as purified as possible; which is why the tap water in Singapore is drinkable. The day ended with a hands-on machine learning workshop at Ngee Ann Kongsi Auditorium. We learned how AI depends on machine learning and why is it so important. On the 22nd, we had our science quiz and visited Universal Studios Singapore. This was the best of the whole trip. The endless rides and cartoons everywhere made the day so much fun. On 23rd December, we had our closing ceremony and got certificates and colourful mugs. On the 24th, we checked out from the hostel and set back to the airport and left for our usual daily life. It really was the best experience of my life, with all the new friends. Our Chief Coordinator & Head of Mathematics, Mr. Thoufiq Hossain and Science Coordinator Miss Jakia Khanom went with us and they were so supportive and caring. They helped us with everything and really enjoyed it with us. This will be the most memorable experience ever.

PRESIDENCY offers Merit Awards

Presidency always aims at accelerating its success stories and thus is unwavering to flourish students' dexterous stride to future goals. It facilitates students who make excellent results in O Level with stipend, scholarships and offers all the possible facilities that can be offered by an institution. In the year 2022, a total of 425 students from Presidency appeared at O & A level exams and more than 45% of them got A*/A grade. Presidency acknowledged the brilliance of its young prodigies in CAIE exams by offering scholarships in their AS & A level. A total of 55 students have been awarded with upto 50% scholarship for their outstanding achievements. The scholarship certificates were disbursed by the respected Chairman, Presidency Academic Management, Mr. Ashraf Haque Khan Swapan and honourable Rector, Presidency Education, Dr. Imam Hasan Reza in presence of the Vice Principals of all three schools and the teachers.

Presidency won Gold Finalist Award in *Queen's Commonwealth* Essay Competition 2022

Presidency has always been ahead in taking initiatives to bring forth the hidden talents of its young learners. Committed, Presidency believes, our students should not only excel in their academic but also in other co-curricular activities. Moreover, this phenomenal achievement plays a vital role as a recognition of excelling in extra-curricular activities for those who opt to choose scholarships from renowned overseas universities for their higher education degree. This year, with full enthusiasm and literary mind, a huge number of students from classes VI to XII took part in the competition for their glory among which the outcome has been a history in the school. The first ever Gold Finalist Award for the Senior category is achieved by Sumehra Tazreen Hasan (IX). Being selected for 'Gold Finalist Award' means her composition was so highly commended that it was submitted to the Final Judging Panel for its consideration to be awarded as the Senior

Winner, or for the Runner-up prize. Out of a record-breaking 26,322 competition entries this year, only 154 were selected as Gold Finalist Awards. Beside this unique achievement, 6 students achieved Gold Award, 32 Silver Award and 87 Bronze Award. This total of 126 Awards surely reflects the continuous success of the school and its unique way of nurturing the latent talents of the youngsters. On 13th December, 2002, in the Middle School play ground, the Chairman of the school academic management, Mr. Ashraful Hoque Khan Swapan and Rector, Presidency Education, Dr. Imam Hasan Reza handed over the certificates among the talented essayists.

Police Commissioner inaugurating the Annual Sports

Annual Sports 2023

With great enthusiasm and spontaneous participation of the students, the most anticipated event of the year, the two-day-long (January 27 and 28) Annual Sports Competition and Prize Distribution Ceremony 2023 of Presidency has been successfully completed at Bandar Stadium. Being presided over by the Rector, Presidency Education, Dr. Mohammad Imam Hasan Reza, the session was inaugurated by Mr. Krishna Pada Roy, BPM (Bar), PPM (Bar), hon'ble Police Commissioner, Chittagong Metropolitan Police as the Chief Guest by flying colourful balloons.

While addressing the students, the Chief Guest in his speech stated that winning or losing is not a big deal, but participation in sports is important. Through participation in sports-discipline, a sense of responsibility, punctuality,

empathy and mutual respect are inculcated in the students. Students develop themselves into citizens with exceptional leadership qualities. More than one thousand sports enthusiasts participated in 118 events from all three schools in which Nahid Ahmed (X) of Hawk House, Tasnim Tabassum Mahi (IX) of Eagle House, Md. Omar Saad (A2) of Hawk House and Mayesha Fairuz (A2) of Eagle House became School and College Champions among the boys and girls respectively. Winning the highest points, Hawk House grabbed the title of 'School Champion' and Eagle House 'School Runner-up'.

The two-day long programme ended up with a prize giving ceremony in which Alhaj A. K. M. Akter Hossain, Director, the Chattogram Chamber of Commerce & Industry accompanied by honourable members of the school academic management, Vice-Principals distributed the prizes among the winners of the different events as the Guest of Honour. The gracious presence of school academic management members, guardians, teachers, and related associates marked the day.

BANGLADESH

Bronze Trip

Day-1

Acclimatising to new challenges and illuminating students' knowledge, Presidency International School had taken an initiative where 125 resilient souls of class VIII participated along with their teachers and house masters. The excursion became more ecstatic with the presence of our reverend Vice Principal. On the very first day, students visited Bangabandhu Safari Park and discovered many wild creatures, as well as RRRC (Refugee Relief and Repatriation Commissioner) office which was an immense opportunity to exacerbate their knowing about Rohingya Refugees. The students also met the high officials of UNHCR. The head of UNHCR Cox'sbazar, Ita Schuette, gave a brief remark on Rohingya Refugees. The day was capped off by a delightful cultural show at Cox's Bazar Zilla Stadium, where both boys and girls passionately displayed their latent potential through acting, singing, and dancing.

Day-2

"Environment is no one's property to destroy; it's everyone's responsibility to protect." – Mohith Agadi

To protect and clean our environment, the students started their day by cleaning garbage from the seashore. Then, to rejuvenate their souls, they participated in a variety of local games such as: playing football, catching ball, touching a pot with sticks etc. After having a palatable breakfast, they travelled to Himchari where they uncovered the inscrutable beauty of the 'Bay of Bengal' from a hill. Finally, the adventurous trip came to an end with a visit to Ramu Rubber Garden where students came to know the usage and the process of making rubber. The ecstasy of the students emerged rapidly with this trip.

Silver Trip

Sumehra Tazreen
Class IX

This year, the students of class IX had the chance to enjoy their Duke of Edinburgh Silver Trip at Bandarban. It was an amazing experience, albeit hectic and tiring. We all learnt a lot and had the experience of a lifetime.

Day 1

On the 23rd of November, we woke up drenched in excitement with our bags packed. Upon reporting at school, we were divided into groups with designated group leaders and housemasters. We boarded the bus around 7:30am and set off for Bandarban at around 8:00 am. Snacks were served onboard and the journey was filled with singing and dancing. We finally reached Bandarban Zilla Stadium at 10:00 am. After taking some rest and having snacks, we began the sports session which pushed us to challenge ourselves. The first half of the sports session involved groups taking turns playing football, badminton and kabaadi. The second half involved clearing an obstacle course. The obstacles ranged from walking across a bamboo pole while balancing ourselves, jumping over a set of bars, crawling through a tire and throwing a ball into a hanging bucket. A cultural programme was held at night. Here, students and teachers performed a wide variety- from singing to rapping and even beat boxing. One of the local representatives also performed a folk song for us.

Day 2

This was by far the most hectic day of the trip. After breakfast, we set out to visit the Sangu river. Each and every one of us was bewildered by the beauty of this river. Our BDS teacher pointed out that the river was in the upper course (hence, fast flowing) and was surrounded by tertiary hills. Walking in the river and along the surrounding banks was an amazing experience. Next, we returned to the stadium and were informed that our visit to Meghla was to be held after lunch. After a hearty meal, a surprise awaited us- we would travel to Meghla in a special vehicle locally known as "chaandergari". It was a unique journey with the afternoon wind blowing on our face. The serene beauty of Meghla including high hills, evergreen trees and a magnificent lake dazzled us. Climbing up the track proved to be a tiring experience but we persevered. One of the main attractions of Meghla was the hanging bridge which we had the pleasure of visiting. Our next destination was Nilachal. Upon reaching and clicking some pictures, we were entertained with some popular songs by a renowned local folk singer. The view from the top of Nilachal was absolutely majestic in a way, I cannot even begin to describe. Thus, ended the main events of the day. At night, we all prepared for a cultural programme which drew enthusiastic participation from students and teachers alike. The best part, without a doubt, was the campfire. Songs were played and we had an amazing time, dancing under open night sky. Even after an

exhausting day, we still had the energy to wake up at 1 a.m. to watch the Brazil-Serbia match on a projector. Most of us went to sleep soon after but a few dedicated fans stayed awake the rest of the night.

Day 3

We were briefed on the day's plans at the assembly around 6 am. The main events of our last day included visiting and cooking for a local family and distributing blankets amongst the poor. We were divided into 8 groups and set out to visit our assigned family. We did not know that this would turn out to be an experience like none other. Firstly, our housemaster and the boys went shopping at the local bazaar after we had agreed on a menu. We, the girls stayed behind and helped build a traditional stove (popularly known as lakrurchula). Once the shopping was done, we all participated in peeling onions, garlic and ginger. We also prepared the chicken and prawn. During lunch, we sat and shared our meals with the family. This was an humbling experience and a reminder of how privileged we are to lead luxurious lives. A blanket distribution programme was held afterwards for the poor and the orphans. The smiles on their faces reflected their gratefulness. Upon returning to the stadium, we were all exhausted but there was no time to relax as we had to start our journey back to home soon afterwards. The return journey was far quieter to proved how tired everyone was. We reached school at around 7 pm, finally to our anxious parents. This trip taught us how to adapt and thrive in unfamiliar conditions while enjoying ourselves.

Students distributing blankets to the underprivileged

Gold TriP

Farhan Hossain
A2 Level

With hopes ever so high and a spirit ever so indomitable, the Duke of Edinburgh Gold Programme ushered the students of X, AS & A2 into a 6-day long adventurous journey where they got recharged, revitalized and groomed themselves for the upcoming future. The Duke of Edinburgh trip not only challenges the physical ability of campers but also tests a camper mentally. Under the guidance of convenors of Duke of Edinburgh and the Head Prefects of Presidency, 96 students from X, AS and A2 took part in the Duke of Edinburgh Gold Trip and Residential Project held at Matita Camp, Bhatiary. It was a 6-day long adventurous journey which was conducted under the supervision of professional camp instructors. After the entry of campers from Presidency, it felt like the amphitheatre of Matita Camp flooded in iridescence and intensity. Those special 6 days were designed in such a way that all the students got the opportunity to take the challenge and prove their potentiality.

On the first day, we all woke up at dawn, all awake and fresh even before the birds were astir. And our morning started with a 1-hour long

Team work

Acting in groups

Meditation

Group activity

Team effort

session of yoga which was one of the best things to experience in the whole trip. Then, our instructor Mr. Rollin divided us into 6 houses and chose 6 leaders for the respective houses. And as I was the Head Prefect, I was given the responsibility to supervise all the 6 houses neutrally. The first day was full of electrifying activities. And the best activity of the day was "Cross the river", which I completed in the marginal time frame and brought glory for my house, North Pole 1. What a day it was!

Of all the days, it was the 3rd day on which I enjoyed and learned the most, as on that day we visited an orphanage named "Fouzdarhut Chistiya Atim-Khana Abong Madrasa", where under my leadership all the events were held. On that very day, all the campers were responsible for arranging the necessities and sharing some precious moments with the little angels at the orphanage. Starting from the cultural programme to the meals served at lunch, everything was prepared by us for the orphan kids present there. I feel obliged and grateful to get this invaluable opportunity to serve them. However, the visit was not just about being able to serve the mighty souls but also taught us not to take the privileges we are facilitated in our lives for granted. To sum up, we also realised how our simple smile can make the day a whole lot better for a person having a bad time in life.

This was a 6-day long experience merely but it taught me some lessons which I could have ever been learned in my whole lifetime. I couldn't even deduce how my days stretched longer than usual, but then I realised the importance of waking up early in the morning. To add the cherry on top of the cake, I would like to thank my school, Presidency for allowing us to take part in this adventure and residential project trip of the Duke of Edinburgh, where we not only learned the importance of discipline but also got the chance to make memories with our beloved friends and juniors which we will cherish forever.

Bonfire

The Thrill of Climbing

S M Abeer Ullah
Class X

Since my adolescent years, the prospect of climbing has always entertained me. My cousins used to compare me to a monkey in terms of my climbing skills. I didn't realise then that they were making fun of me; but when I did, and also because I started to grow up, I stopped trying to climb any high place I saw. But in the Duke of Edinburgh Gold trip, when I realised on the fifth day that all our activities on that day were only climbing, the pulse of adrenaline and its resulting excitement won me over. I knew that I would be the fastest and most capable climber of all! The first activity was the tree top activity, which was less about climbing but more about traversing through wooden balance beams built high up in trees. I realised as soon as I started the activity that my lack of practice has taken away my climbing skills. I thought I

wouldn't face problem in completing the course in more than 2 minutes, but I ended up having one of the slowest runs, which was really disappointing. With this sense of disappointment from the previous activity, I moved on the next activity, river cross, which involves a person going from one end of the river to the other end by pulling their own weight across a rope. As a person with low upper body strength, I had known that I would have a hard time pulling off this activity, but in the end, with some struggle I was able to complete it.

At this point, it started to dawn on me that maybe I won't be able to climb as I used to. I didn't want to believe it, so I decided to really try my best in the next activity - Jumering. This involves pulling one's own weight up a rope using hand and leg jumering devices, also known as ascenders. I ended up being the 6th fastest person to finish the climb in my group, which I was satisfied with. Jumering was also my favourite activity out of the others, as it was, indeed, challenging, but achievable. The view at the top of the climb was also tranquil.

With a shrinking victorious heart, I moved on the next activity, The Adventure Tower, in which a climber had to climb up wooden beams to climb a tall tower. This was probably the most fun activity as after getting to the top, I was given a chance to experience the thrill of free-falling, which was honestly and quite literally, breath-taking. At the end of the day, though I was feeling contended as regardless of my performance in all the activities, I did have fun doing them. The Matita instructors were amiable and immensely helpful in explaining how to do every activity. THANK YOU FOR YOUR SUPPORT, MATITA!!

6th Red Crescent Youth Conference 2022

Bangladesh Red Crescent Society, Presidency School Unit participated in the 6th Youth Conference 2022, one of the largest events of Red Crescent Youth Chattogram held at International Convention Hall, Chattogram on October 29, 2022. Barrister Mohibul Hasan Chowdhury Nowfel, Deputy Minister, Ministry of Education graced the conference as the Chief Guest of the inaugural session. The Acting Chairman of Red Crescent Youth, Chattogram District Unit, Dr. Sheikh Shafiul Azam; the Secretary General of Red Crescent Society; Md. Aslam Khan, Secretary, Red Crescent Youth, Chattogram were also present in the programme. In this day-long programme, more than 1500 youths and more than 40 teachers from One Hundred and Ninety Eight Schools and Colleges and the senior members from RCY learned and shared their ideas for better youth activities. The young, energetic and creative youth volunteers had interaction with experts to learn how to develop youth activities to build a better society in particular and nation in general. Different educative sessions were run by Sohanur Rahman, Coordinator, Youth Net for Climate Justice, Morshed Mishu, Head of Executive, Cartoon People, Mohit Devnath, Senior Youth, Red Crescent Youth, Chattogram and Nishat Majumdar, the first Bangladeshi woman to scale Mount Everest. The participants took part in various types of training and motivational sessions that would help them to be better youth. The closing ceremony was

presided by Gazi Md. Iftekhar Hossain Emu, Youth Chief, Red Crescent Youth, Chattogram. Mr. M. A. Salam, Treasurer, Bangladesh Red Crescent Society and Vice Chairman of City Red Crescent concluded the conference as the Chief Guest of the session.

Annual Parliamentary Debate

Annual Parliamentary Debate 2022-2023 organised by Presidency International School had its Final Session on 29th September, 2022 in the Swiss Park Convention Centre with the presence of honourable Chief Guest and Speaker of the Session, Prof. Dr. A B M Abu Noman, Former Dean, Faculty of Law, University of Chittagong. The programme was chaired by Dr. Imam Hasan Reza, Rector, Presidency International School. In this Final Session, between the Charles Dickens Team and Robert Browning Team, the former became the Champion and for excellent showcasing of speech, the best speakers were Hubaisha Tahsin Subat (AS Level), Azmayeen Muhammad Nibras (A2 Level) & Humayra Binte Saba Salam (AS Level).

Sheikh Russel Inter-Class English Debate Competition 2022

Sheikh Russel Inter-Class English Debate Competition-2022 was organised in the Middle School on 18th October. The event being presided over by Dr. Imam Hasan Reza, Rector, Presidency Education was blessed with the presence of Mr. Hasan Akbar, the Chief Reporter of Daily Azadi as the Chief Guest. Vice Principal, Senior School, E U M Intekhab and Vice Principal, Junior School, Firoz Ahmed were also present to adorn the ceremony.

Around 500 students registered to participate in the war of words and exhibit their articulation in speech. The students were categorised into two groups; Group A (III-V) & Group B (VI-VII) and the month long battle of words went on fiercely between the classes under the surveillance of skilled debate trainers of the school. Since the topics required deep research, the young debaters engaged themselves in peer and group discussion with their mentors to rework and refine their scripts.

After a month of preparation, with much intensity, the competition began with a three panel jury; Raihanul Islam, Dept. of English and Moderator, Presidency Association of Debaters (PADs), Mokarram Hossain, Dept. of English and Tousif Tanvir Alam, President, Presidency Association of Debaters (PADs). Class IV competed against Class III on the topic "Internet is better for learning than teachers" and became the champion while Class VII battled against Class VI on the theme

"Polythene should be banned worldwide" and became the champion. The audience cheered for all the speakers as they manifested their sheer eloquence and highlighted their astute points from all sides of the spectrum.

The entire debate session was a kaleidoscope of opinions, thoughts and ideas that surely intensified the depth of knowledge of the students. Not only did they hone their public speaking skills, but also enhanced their confidence to unfold their perspective in an articulate manner.

Award Ceremony of Science Projects

Activities related to science provide students with opportunities to develop and practise different skills and attributes. These include communication skills, collaborative skills, teamwork and perseverance as well as analytical, reasoning and problem-solving skills. Science projects make science relevant to everyday life and prepare students for lifelong learning. These projects give students a window into the complexities and uncertainties of science. Class wise and group-wise (in Senior and Middle Schools) best science project awards of the First Term were handed over to the young scientists on 15 and 16 November, 2022 in presence of the School Leaders, Science Coordinator, concerned teachers and students.

Teachers' Day Celebration

Tree plantation in Senior School

Teachers are the main change makers in our society who play the most significant role to bring quality in education and shape the future of the learners. Presidency celebrated Teachers Day 2022 with the theme "The transformation of education begins with teachers" to honour the ongoing efforts and dedication of the teachers through planting trees on 27th October, 2022. The school leaders along with the teachers were present in the programme.

Club Fest 2022

Presidency International School boasts of its holistic education. To organise co-curricular and extracurricular activities, numerous clubs are active throughout the year. This year Presidency initiated a step to illuminate the young enthusiasts of Presidency about different club activities and their benefits. Hence, Club Fest 2022 was arranged for the first time. The programme was organised by Presidency Student Initiative (PSI). In this fest, 7 clubs including the clubs of STEM CIRCLE, namely Robotics, Coding, Maths, Physics, Biology, Chemistry, and English took part in their individual stalls with colorful displays of activity and achievement. Dr. Imam Hasan Reza, the honourable Rector, Presidency Education, inaugurated the programme with his inspiring speech. The inauguration ceremony ended with the speech from Mr. E U M Intekhab, Vice Principal, Senior School. The ceremony was also graced by Mr. Mohammad Jashim Uddin, Vice Principal, Middle School. Mentors and Coordinators of Clubs and teachers of Senior and Middle Schools also attended the programme. The fest was held in all three campuses of Senior School (20-21 Nov), Senior Annex (22 Nov) and Middle School (23 Nov).

Presidency Chemistry Club

Presidency inaugurated its much anticipated first ever Chemistry club on 17 November. The Vice Principal, Senior School, E U M Intekhab inaugurated the club in presence of Vice Principal, Middle School, Md. Jashim Uddin, Chief Coordinator and Head of the Department. Science Coordinator, teachers of Chemistry Department and Club President Mehrazul Haque with his team also attended the programme. This club may be the only high school Chemistry Club all over Bangladesh! With this, all the STEM clubs of Presidency have become active. The main purpose of the club is to bring out the hidden talents of the students and make others enthusiastic about Chemistry. With various trainers, resources and lessons, the club hopes to prepare students to represent Presidency nationally and internationally in various Chemistry Olympiads.

President: Mehrazul Haque

Vice Presidents: Walimul Islam Khan, Md. Maftun Chowdhury, Auronee Ahmed & Fairouz Humayra.

Secretary: Hubaisha Tahsin Subat

Miladunnabi (SM) Celebration

Miladunnabi (SM) was celebrated in Presidency International School on 16th October, 2022 marking the day of birth and passing away of Prophet Hazrat Muhammad (SM), with religious festivity and fervour. To enlighten the students about the glorious existence of our beloved Prophet, Hazrat Muhammad (SM), the school arranged different activities like singing and offering Hamd and Naa'th-e-Rasool, Arabic alphabet colouring, Art, Kiraat, Islamic Quiz and Essay Competitions on the life of the Prophet Muhammad (SM). With great enthusiasm, our learners took part in different events. The programme was presided over by Dr. Imam Hasan Reza, Rector, Presidency Education. The programme of the Senior and the Middle Schools was graced by Prof. Mohammad Mojahidul Islam Chowdhury, Principal, Chittagong College and in the Junior School, Professor Sayed Mohammad Jalal Uddin Al Azhari was the Chief Guest. The Chief Guests expressed their gratitude at the amazing performances of the students. The great display of the spontaneity of the students was also highly praised by the Chief Guests. They were optimistic that this way future generations would be able to build themselves up as true followers of our beloved prophet Mohammad (SM). Vice Principal, Senior School, E U M Intekhab, Vice Principal, Middle School, Mohammad Jashim Uddin, Vice Principal, Junior School, Firoz Ahmed and the senior leaders of the school along with the teachers had attended the programme. Later, the winners of the competitions received their prizes for their brilliant performances.

Fire Drill and Earthquake Evacuation Management Programme 2022

Fires, Earthquakes and Natural disasters can cause devastating effects on any type of premises. However, it not only draws a negative impact on society but also on the economy of a country. Therefore, we should always be prepared to handle such a crisis in need.

On the 10th of Oct, we were attending our mathematics class, and suddenly the fire alarm was ringing repeatedly. We took no time to understand something was wrong. On the spur of the moment, all the class prefects were informed to evacuate their respective classrooms as soon as possible. Immediately, all the students were led to the ground and made it sure that the classrooms were completely evacuated. When we reached the ground, our vice principal sir ensured us that it was a fire drill. Students are the leaders of a nation, and they paint the future scenario of a developed country. So, it is very essential for the young minds to understand what to do if fire breaks out and how to execute evacuation step by step. To educate the students, Presidency Discipline Committee, headed by Lubna Jahan arranged the "Fire Drill And Earthquake Evacuation Management" programme under the guidance of Chandranagar Fire Service Team. The fire drill was conducted by Mr. Newton Das, Deputy Assistant

Director and Mr. Shahidul Islam of the fire service team. The students were very enthusiastic to learn and acquire the fire safety skills from the fire-fighters. Along with a practical demonstration of an evacuation procedure, there was also a power-point presentation on the drill which was followed by a short Q/A session. This fire drill not only provided us the basic skills to handle such a situation but also provide us with an opportunity to learn some basic measures quickly and effectively. It certainly facilitated us to learn how to take the correct decision in a stressful situation. Undoubtedly, it was a wonderful experience for all the students of Presidency.

Interschol Chess Tournament Home Fixtur...

The home fixtures of Marks Active School Chess Championship were held on 13 October 2022. The group consisted of four teams: Presidency International School Team B, Cantonment English School and College Team B, Radiant School and College and Nasirabad Govt. High School. Our first match was held against Cantonment English School and College Team B. It was a tight match but at the end, CESC won by a margin of 3-1. The second game was held against Radiant School and College where Presidency Team B won by 3-1. The last game was held against Nasirabad Govt. High School. We lost by a margin of 3-1 points. It was a pleasant experience to have them in our school and I hope we will get more opportunities like this in future.

Robotics Project Showcasing Competition 2022

With the theme "Thinking Technologically", Presidency Robotics Project Showcasing Competition 2022 was held at the premises of Middle and Senior Schools. After all the planning for two weeks - designing their projects, honing their presentation - our young scientists showcased their projects to visitors, peers and the judges. These are the products of their learning in our Presidency Robotics Summer Camp 2022. The programme was bustling with robotics enthusiasts of the classes III-A2 level. 25 students from the classes VII-X participated in different groups and everyone gave extensive effort. It was amazing to see such bright minds showcasing their talents by making different Robotics projects such as Automated Plant Water Resistor, Smart Floor Cleaner, Train Accident Prevention, Human Following Robot, Bluetooth R-C car, Smoke Detecting Robot, Obstacle Avoiding Robot and Multipurpose Robot Car. The programme was graced by the presence of Dr. Imam Hasan Reza, Rector, Presidency Education, Vice Principals, concerned Teachers and the robot enthusiasts. The winners were Team Voltage Vanguard (Champion), Team Cyborg (1s Runner- up) and Team Asimo (2nd Runner-up).

The primary goal of the Presidency Robotics Project Showcasing Competition 2022 is to develop and disseminate a technology integrated education experience to our students who are interested in robotics. We believe by organising such competitions or Robo-fest in future, we can impact students' interest in robotics, their motivation to be engaged with technology, and their confidence in their own ability to continue their technology explorations.

AOTS Alumni Society Art Competition Zayan Hossain Chowdhury Class VII

Few days back, I took part in an art competition organised by Chattogram AOTS Alumni Society (CAAS). The theme of the event was the 50th anniversary of the establishment of diplomatic relations between Bangladesh and Japan. After depositing the artwork which took me approximately 3 days, I was informed that I would be awarded as the Runner-up (2nd Position) in the competition. The prize distribution ceremony took place in Radisson Blu on 22 October, 2022 where the Ambassador of Japan to Bangladesh, Mr. Itto Naoki was present as the Chief Guest. Again, on the next day during the assembly, the Vice Principal, Middle School Md. Jashim Uddin honoured me by recognising my achievement in front of all the students. I am glad and I would like to appreciate my school for giving me the opportunity to participate in such a prestigious competition.

CGS welcomes Presidency to Futsal

The fastidious venue, Chittagong Grammar School playground welcomed Presidency footballers to its ground to participate in the CGS Futsal Football Tournament, that took place on November 17–18, 2022. As football is one of the earliest games played and enjoyed by sports enthusiasts around the globe, this new adaptation of the game has hugely got popularised among the young in the recent days. Twelve teams (CGS [WHITE], IHS, WCA [B], CGS [RED], PIS [A], WCA [A], CGS [BLUE], AL-HIDAYAH, CGS NC [B], PIS [B], CGS NC [A], CIDER) including two Presidency teams, Team "A" and "B" exhibited their futsal skills which was enjoyed wholeheartedly by lots of participants, guests, and onlookers.

The competition got underway at 3:00 pm. These teams were split into four groups. At 3:20 pm, we played against Cider in our opening match and later the match ended in a 1-1 draw though both teams performed admirably. The following day, we played against WCA [A] and won by a score of 2-0. In the game, our team displayed excellent performance. We topped our group and advanced to the quarterfinals. And we defeated CGS NC [A] by 1-0 in the Quarter-final match. We then advanced to the Semi-finals. We faced CGS WHITE in the Semi-final, and after a scoreless tie, the referee signalled for a penalty. Our score was 0, while CGS [White]'s 2. In the whole tournament, our team performed brilliantly. Nevertheless, whether we succeed or fail, the reality remains that we took part, gained experience, and learned

from our mistakes. Great football player Diego Maradona once said, "Hard work is the reason individuals win or succeed. Success or winning has nothing to do with luck. Losing is essential to everyone. The more you lose, the more you want to win." We gained experience, were able to identify our weaknesses, and maybe, we'll perform better in the following one.

Presidency Chess Teams shine in Marks Active Chess Champs

On 20th and 21st October, 2022, two teams of Presidency International School participated in Marks Active School Chess Champs, a large-scale countrywide chess tournament at Gymnasium Hall, M A Aziz Stadium, Chattogram. Presidency Team A, consisted of Gyan, Arittra, De-an, Sadi, Sadat and Shehrose and Team B, including Adib, Arabee, Isha, Sami, Inqiad and Ibrahim were selected through a series of practice and training sessions organised by Presidency Chess Club.

The tournament was played in a 7-round Swiss system. 4 of the 6 players took part in each round, and the other 2 were substitutes. 80 teams from 44 different Schools participated. An intense battle awaited the players as all the top chess-playing teams of Chattogram. After round 5, both Presidency Team A and B had collected the maximum 10 points by winning all the games. As per the rules of the Swiss System, the strong teams get paired up with other strong teams in the match-ups. Since Presidency teams had achieved high points on day-1, our next opponents were to be the other high-scoring teams. On round 6, Presidency Team A lost to Cantonment English School and College-B, but bounced right back to win the last game (round 7) against Halishahar Cantonment School and College. Meanwhile, Presidency Team B drew on round 6, but lost to Nasirabad Boys School on

round 7. So, at the end of the tournament, Team A had won 6 games and lost 1 while Team B had won 5, drawn 1 and lost 1.

With these outstanding performances, both the Presidency Chess Teams secured top spots to earn a place on the next phase of the competition, which was to be played in home-away system.

Alumni Chess Tournament

Imagine after a brief formal tournament organised by the school, your seniors decided to organise an unofficial tournament right after the Chess Championship 2022. The unofficial tournament would follow the same rules of the Chess championship but the only difference would be that in this case the seniors were participating in the tournament. Generally people would play with relaxation in unofficial games since the pressure of official norms is absent and most people's brains work best on relaxed moments. Thus, this tournament was far exciting with loopholes and twists during games with 7 rounds in total with a quick blitz game. Medals were to be arranged for the 1st, 2nd and 3rd position gainers after the tournament. Intense match it was indeed with move after move with a chess clock beside you which you have to press after every move you deliver. So, usually this was very fast and you have no time to think since the basics is to have time reserved for critical situations. After 7 rounds of absolute tense moments, medals were acquired using the club fund and the top 3 positions received their awards.

Excursion

Class III- VII

Learning outside the classroom is a great way to encourage critical thinking, problem solving and decision making skills in students. To emphasise the significance of this fact, Presidency organises outing every year.

After a two-year interlude, our spirited students along with their cheerful teachers of classes III-VII in bright morning, with jubilant mood and cheerful singing had their bus rides to get their excursions done in different wonderful venues. Students of Class-III visited the Butterfly Park and Chattogram Women's Polytechnic Institute at Halishahar; students of class-IV explored the 'Ethnological Museum', and Chattogram Women Polytechnic Institute; students of Class-V enjoyed the scenic beauties of Oodaleah Tea Estate, Fatikchhari, Chattogram, and students of Classes VI & VII together set off to Kaptai Lakeshore Resort to enjoy their long-awaited trips.

The students participated in sightseeing, various sports activities, and life skill performances while accomplishing their excursion journey. Besides, they got refreshed with a scrumptious lunch.

The enjoyments of the days do not end here. After lunch, cultural programmes had been held with the participation of the students in dramas, group songs and many other activities.

At the end of the programmes, raffles were drawn for both the teachers and the students. After the segments, the gifts, chocolates and snacks were distributed among the pupils and the teachers. Eventually the thrilling and captivating excursions ended bidding good bye to all.

Concordia Presidential Scholarship

The Concordia Presidential Scholarship is the University's most prestigious undergraduate entrance scholarship that supports international students. Each year, the University welcomes outstanding students from around the world to study, conduct research and innovate in our flourishing institution. This award recognizes international students who demonstrate academic excellence, community leadership and are motivated to make the difference in the global community.

Concordia is seeking nominations from school principals, teachers, or guidance counselors, who know of exceptional students who plan to attend our school. The award covers all tuition and fees, books, residence, and meal plan fees.

There are up to two Presidential Scholarships available each year for incoming students in any full-time undergraduate degree program.

Scholarship Details

The award covers the full costs of tuition and fees, books, and residence and meal plan fees. This scholarship will be offered for up to four years of study assuming the student maintains renewability requirements.

Eligibility

You are eligible for the Concordia Presidential Scholarship if you have been nominated by a nominator and if the school has contacted you to apply.

1. Students applying to university for the first time, in their first undergraduate degree program (have no prior university credits)
2. Will be studying full-time in a degree program
3. Are international students who will be paying the full international tuition and fee rate
4. Will be starting their studies at Concordia University in Fall
5. Have applied for admission, paid the application fee, and obtained a Concordia student ID number (an 8-digit number, beginning with the number 4)

The Duke of Edinburgh's International Award Leader Training Programme

A jubilant 'International Award Leader Training Programme of the Duke of Edinburgh' was held on 12 November, 2022 at Presidency International School with an active participation of 40 teachers from 3 different schools of Chattogram. 19 teachers from Presidency International School, 19 from Ispahani Public School and 2 from Mirza Ahmed Ispahani School took part in the programme. AKM Rejwanul Kabir, an assistant Programme Manager of The Duke of Edinburgh's Award Foundation Bangladesh, the trainer and facilitator of the programme highlighted the importance of the Bronze, Silver and Gold Awards for the students willing to study in tertiary level at home and abroad, especially to achieve scholarship from foreign universities. The award leaders were enlightened with different instructions on what to do in three different awards and how to assess the students' activities separately. The participant-teachers were full-fledged with comprehension to be better assessors for the students' performance elevating themselves with clear instructions from the trainer for their future awardees. Md Abdul Karim, Award Coordinator, DEA of Presidency, was honoured with crest after the programme for his wholehearted dedication to the programme.

Banff, a Park worth Visiting

Abdullah Abrar
Class VIII

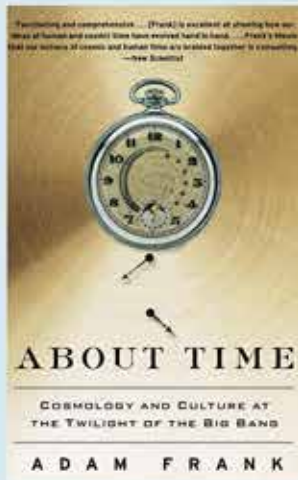

In the vast geography of North America, a vast range of mountains called the Rocky Mountains stretch some 3,000 miles from British Columbia and Alberta in Canada through Idaho, Montana, Wyoming, Colorado, and down to New Mexico in the U.S. The range is breathtaking beyond words with its diverse wildlife, alpine lakes and striking wilderness.

The Rocky Mountains that are situated in Canada are known as the Canadian Rockies. The Canadian Rockies have alpine lakes, so beautiful, with their colours ranging from blue to turquoise and both colours blended in some expanse. Alpine lakes are glacial lakes since they are fed by water that runs off glaciers, and that water carries along fine particles of rock that have been grounded up by the massive weight of the glaciers. These fine particles of rock are suspended in the water, which causes the reflections of certain wavelengths of light and not others which is why alpine lakes have a surreal blue colour which makes them so special and magical in nature. The Rockies cover a huge area including the province of British Columbia and Alberta, and there were lots of options for tourist spots like parks. The nearest were in Alberta. While I was in Canada, our family had an idea of going there to observe the natural beauty of the Rockies and the lakes. We were living in Manitoba at that time, so it wasn't that far away from our city Winnipeg. A beautiful park situated in the Rockies was Banff National Park.

A group of families we knew decided to join us and in the end we all agreed. We took

preparations such as making lots of fantastic delicacies like Biryani and cream cheesecake. The three families got into their respective cars and drove in a line following each other. It took about 14 hours, but it wasn't a problem since we had departed early at the crack of dawn. We reached our destination at evening and settled in a big house we had rented for all of us to stay. Next morning, we headed on our way to Banff National Park. On the way, we stopped at lake Louise and took some photographs there. The lake was simply beautiful. Since we had stopped there, we decided to have a quick snack consisting of Waffles loaded with Maple syrup, blue berries and cashew nuts. It only took us ten minutes to reach there, and the tickets were cheap (Only \$4.00 for the kids above ten and \$8.00 for adults). The park was huge, and the cute snow-clad mountain peaks along with the trees blended in just perfectly. You might be wondering what the tickets really were for. We saw children rushing to the Gondola (either an open seat or a cabin sliding in the air hold by strong metal cables) rides! Gondolas are usually used to transport people from one mountain or high hill to another. But the Gondolas in Banff National Park were more than just transportation vehicles. We showed our tickets and according to our serial, we needed to wait for at least 5 minutes. Once we got on the Gondola, my heart skipped a beat as I looked down from our glass window. But I forgot my fear and instead looked around to appreciate how beautiful the view was. Just from up there, I could see the frosted mountain peaks and the surrounding wilderness. We even happened to see a lake in the distance. I took a selfie of our family and together, it was a very cosy time enjoying the ride.

After we finished our ride, we went to a camping area where there were plenty of benches and sitting areas for picnics. After completing our lunch, we got back in the car and drove to lake Moraine. Lake Moraine is just a sister of lake Louise. We crossed the lake and hiked up one of the hills beside the lake. From there, we stood and took pictures of the lake and the surroundings. How breathtaking it was to observe the lake and the mountains from above in the Gondolas! We stayed there until sunset which was a charming moment to see the sun melt into the depths of the Mountains.

BOOK REVIEW

ABOUT TIME: COSMOLOGY AND
CULTURE AT THE TWILIGHT OF THE
BIG BANG

Dept. of English

The Big Bang is all but dead, and we do not yet know what will replace it. Our universe's "beginning" is at an end. What does this have to do with us here on Earth? Our lives are about to be dramatically shaken again—as altered as they were with the invention of the clock, the steam engine, the railroad, the radio and the Internet. Time, writes the author, can be thought of as both "cosmic time" and "human time." Material engagement with the physical world necessarily is affected by cultural invention; from ancient civilization to Microsoft Outlook, time is "entangled" with mankind. In addition, even as entanglement shifted from the day/night dichotomy of hunter-gatherers to the sophisticated atomic clocks we use today, our interaction with time relied on the cosmos—movements of the earth, sun and other stars remain the basic elements on which our notion of time is built. As human consciousness grew more sophisticated, so did our manipulation of time. Clocks, telescopes, radio, GPS and e-mail are all examples of how cultural invention and cosmic time are interwoven and mutually articulated. Maintaining a conversational and enthusiastic tone and accessible vocabulary, the author surveys the implications of this "braiding" of time and culture in terms of quantum physics, and introduces several alternatives to the Big Bang ex nihilo. String theory, multiverse models, brane

cosmology and other fields may yield answers about the creation of the universe, and are also implicitly theories of (space)-time. Depleting reserves of oil and energy, too, indicates the need for a renewed approach toward resources and time. Ultimately, Frank argues that recognizing our place in the ongoing narrative of the creation of cultural time and cosmic time—moving beyond the cosmology of the Big Bang (of which "ours" may be one of many)—is what will allow mankind to enter a new, global era of time and culture. A phenomenal blend of science and cultural history.

Time is both our grandest and most intimate conception of the universe. Many books tell the story, recounting the progress of scientific cosmology. Frank tells the story of humanity's deepest question—when and how did everything begin?—alongside the story of how human beings have experienced time. He looks at the way our engagement with the world—our inventions, our habits and more—has allowed us to discover the nature of the universe and how those discoveries, in turn, inform our daily experiences.

This astounding book will change the way we think about time and how it affects our lives.

About the Author

Adam Frank is a professor of astrophysics at the University of Rochester. He is a co-founder of NPR's 13.7: Cosmos and Culture blog and an on-air commentator for All Things Considered. He also served as the science consultant for Marvel Studio's Dr. Strange. He lives in Rochester, New York.

Film REVIEW

Hidden Figures

By – Theodore Melfi

Reviewed by Md. Mohiuddin, Dept. of English

Written by Melfi and Allison Schroeder, and directed by Theodore Melfi, the movie Hidden Figures is loosely based on the 2016 non-fiction book of the same name by Margot Lee Shetterly about African female mathematicians who worked at NASA during the Space Race.

Hidden Figures tells the story of three unsung heroes of NASA. Dorothy Vaughan is the informal supervisor of the West Area Computers Division, which is a group of thirty black women doing the calculations for the spacecrafts. Two of those women are Mary Jackson, an aspiring engineer, and mathematician Katherine Goble, who is the centre of our story.

The movie opens with the three ladies stranded on the side of the road after Dorothy's car breaks down. A cop comes to investigate and becomes distracted by the fact that the ladies work for NASA. This scene makes two things clear. First, it reminds us of the racial tensions of our society at the time. Second, it reveals that no matter what, the space race is at the front of everyone's mind. Katherine is reassigned to the Space Task Group, which does the calculations for all the shuttle missions. However, she finds that she is the only female and only person of color working in the division. This leads to animosity between her and her coworkers. They bring in a coffee pot for colored people in a heartbreaking instance. More subtly, Katherine's bright patterned dresses clash against the uniform white button downs and black ties worn by everyone else in the department.

However, this animosity is demonstrated beautifully and heartbreakingly in a single scene. The building that contains the Space Task Group doesn't have a colored bathroom. So, she has to run in her heels and skirt half a mile to the West Area Computers division with her work in hand. She works while she uses the bathroom, then runs back to her office. This is played for laughs the first few times. It is even set to Pharrell's song "Running'." However, on a rainy day, this simple injustice causes Katherine to snap. Taraji P. Henson is an actress with a lot of power behind her, and she lets it go in this scene. But what makes it so effective is that Melfi builds up to it. He earns that scene and Henson knocks it out of the park. It may be emotionally manipulative filmmaking, but to the movie's credit, it essentially asks you to buy into it emotionally and you allow it.

More than anything, these women just want to work and do what they love. They want to have the opportunity to prove themselves. Allison Schroeder and Melfi's screenplay does that. It places the lens of the movie squarely on these ladies. It filters the American society through their experiences. It's one thing for a biopic to tell a story. But, Hidden Figures is the rare biopic to show us a real person.

The movie tells the story of unsung heroes and it makes it a point to remind you of the impact of both their work and the work. It has a reverence for its subjects that is much vital. Thanks to the incredible performances from the cast. However, it's the three leading ladies who carry the movie on their shoulders. Taraji Henson gives one of the best performances of the year as Katherine Johnson. She gorgeously emotes in two incredible scenes that are high points for the movie.

Hidden Figures is one of the most satisfying and enjoyable movies. It will hook you from the very first time you see Taraji Henson, Janelle Monáe, and Octavia Spencer grace the screen and not let go until the last credit rolls. Watching Hidden Figures is perhaps one of the best times I had while watching it recently.

বার্ষিক বাংলা বিতর্ক প্রতিযোগিতা

চিন্তার মুক্তি হোক যুক্তির আলোয়

বিতর্ক মানুষকে শুদ্ধতার পথ খুঁজে নিতে সাহায্য করে। বিতর্কের মাধ্যমে সাধিত হয় চিন্তার উৎকর্ষ। শিক্ষার্থীদের চিন্তার উৎকর্ষ সাধনে প্রতি বছরের ন্যায় এবছরও প্রেসিডেন্সি ইন্টারন্যাশনাল স্কুলে বার্ষিক বাংলা বিতর্ক প্রতিযোগিতার আয়োজন করা হয়। বার্ষিক বাংলা বিতর্ক প্রতিযোগিতার সমাপনী পর্ব গত ২১শে নভেম্বর, ২০২২ তারিখে অনুষ্ঠিত হয়। প্রেসিডেন্সি এডুকেশনের রেক্টর, ড. ইমাম হাসান রেজার সভাপতিত্বে সংসদীয় পদ্ধতিতে আয়োজিত চূড়ান্ত পর্বের বিতর্ক প্রতিযোগিতায় প্রধান অতিথি হিসেবে উপস্থিত ছিলেন, ড. বদিউল আলম পান্ডে, উপপরিচালক, স্থানীয় সরকার, জেলা প্রশাসকের কার্যালয়, চট্টগ্রাম। প্রধান অতিথি তাঁর বক্তব্যে বলেন, বিতর্কের মাধ্যমে মানুষের চিন্তাকে সাবলীলভাবে প্রকাশ করা যায়। তিনি বাংলাদেশের উন্নয়নের বিভিন্ন দিক নিয়ে আলোচনা করে বলেন, শিক্ষার্থীদের আগামী চ্যালেঞ্জ মোকাবেলায় যথাযথ প্রস্তুতি নেওয়া দরকার। ইংরেজি মাধ্যম স্কুল হওয়া সত্ত্বেও বাংলা বিতর্কে দেশব্যাপী নানান প্রতিযোগিতায় অংশগ্রহণ ও পুরস্কার অর্জন করায় প্রধান অতিথি প্রেসিডেন্সি ইন্টারন্যাশনাল স্কুলের ভূমিকার ভূয়সী প্রশংসা করেন। স্বাগত বক্তব্য উপস্থাপন করেন, স্কুল উপাধ্যক্ষ, জনাব ই ইউ এম ইনতেখাব। সমাপনী পর্ব ও পুরস্কার বিতরণী অনুষ্ঠানে আরও উপস্থিত ছিলেন, মিডল স্কুল উপাধ্যক্ষ জনাব মুহাম্মদ জসিম উদ্দিন, সিনিয়র স্কুল চীফ কো-অর্ডিনেটর, জনাব মো: তৌফিক হোসেন এবং শিক্ষক-শিক্ষার্থীবৃন্দ। প্রতিযোগিতায় চ্যাম্পিয়ন, হয় 'কাজী নজরুল ইসলাম দল' ও রানার আপ হয়, 'রবীন্দ্রনাথ দল'। শ্রেষ্ঠ বক্তা নির্বাচিত হয়, সাইবা সোবহান।

ইচ্ছে

নানজিবা হাসিন খান
অষ্টম শ্রেণি

চারুকেশী তার নাম। জীবনে তার শুধু একটাই ইচ্ছে, সে সাগর দেখতে যাবে। এই ইচ্ছে তার বেশ কয়েক বছর ধরেই। রাস্তায় যে টিভির বড় দোকানটা আছে, সে দেখেছে সেখানে সাগরের বিশাল ঢেউ এমন এক শব্দ নিয়ে এই ঢেউ এগিয়ে আসে, মনে হয় যেন এপারে থাকা সব দুঃখ সাথে করেই নিয়ে যাবে। চারুকেশীর দু'কূলে কেউ না থাকলেও জীবন তার বেশ চলেই যাচ্ছে, তবে যদি একবার সাগরের দেখা মিলত তার জীবন বোধহয় সার্থক হয়ে যেত। প্রতিবারের মতন সে টিভির দোকানের বাইরে দাঁড়িয়ে আছে, যেন জিওগ্রাফি চ্যানেলে আবারও সেই সাগরের বিশালত্ব দেখতে পায়। এমন সময় হঠাৎ দোকানের মালিক এসে ভীষণ অপমানের সুরে তাকে সেখান থেকে তাড়া করে। চারুকেশীর বোধহয় প্রথমবারের মতন চোখে এতটা জল নেমে আসে। এসব দৃশ্য দূর থেকে দেখছিল নজির মিয়া। নজির মিয়া হলো সেই এলাকার বিখ্যাত চা-ওয়ালা। সে চারুকেশীর হাতে এক গ্লাস পানি ধরিয়ে দিয়ে বলে, কি হয়েছে, কাঁদছিস কেন? চারুকেশী ফুপিয়ে কেঁদে বলে, বিশ্বাস করেন, আমার জীবনে শুধু একটা ইচ্ছে, আমি সাগর দেখতে যাব। নজির মিয়া একটু সময় চুপ করে থেকে বলে, শুক্রবার ভোর সাতটায় আমার দোকানের সামনে থাকিস। চারুকেশী পাঁচটা কোনো প্রশ্ন করে না, বরাবর ভোর সাতটায় উপস্থিত হয়। নজির মিয়া আর চারুকেশী দীর্ঘ এক পথ পাড়ি দিয়ে সূর্য ডোবার একটু আগেই সাগরের সামনে গিয়ে পৌঁছায়। চারুকেশীকে এত বছরে এতোটাই খুশি হতে খুব সম্ভবত কেউ দেখেনি। সে ডুবে যাওয়ার ভয়-ভীতি ছেড়ে সাগরের ঢেউয়ের ঠিক মাঝে গিয়ে শুয়ে পড়ে। তার কানে সেই স্বপ্নের সাগরের ঢেউয়ের শব্দ বাস্তবে অনুভব হচ্ছিল। যেন তার মা-বাবা দূর এক অজানা জায়গা থেকে তার জন্য আদর মেখে এই সাগরের পানিতে মিশিয়ে পাঠিয়েছে, তার চুলে-মুখে সেই আদর মেখে যাচ্ছে। তার মনে হলো, তার জীবনে আর কোনো অপূর্ণ ইচ্ছে নেই। আজ সে ভীষণ খুশি এবং নিজেকে ভাবছে পৃথিবীর অন্যতম সুখী মানুষ।

Junior School Outing

Students of Class I and II enjoyed their Day Out after a long grim gap of two years. The happiness of the young explorers had no bounds when they saw the incredible animals in the zoo. The fun rides of Foy's Lake made their day even more joyous. Singing, exploring, playing and eating delicious meals - nothing was missing in this perfect memorable day.

Inter-House Basketball Tournament

Junior School successfully hosted the 'Inter-House Basketball Tournament' 2022 at Junior School premises with great enthusiasm. The four houses- Falcon, Kite, Eagle and Hawk did not give up hope of winning till the last whistle was blown. Our young players put up a great game with all their might for snatching the championship trophy. Kite & Falcon in the boys' group and Eagle & Hawk in the girls' group got themselves into the final match. After a fierce competition among the Houses, Falcon (Boys) and Hawk (Girls) bagged the championship trophy. The other Houses displayed great sportsmanship and cheered their fellow opponents in the moment of victory. Ibadat Alam Ayan and Fatema Nooren were named the best players of the tournament.

The Way to Umrah

Afifa Hossain
Class I

Last Ramadan, I went to Saudi Arabia for Umrah with my family. At first, we reached Madina, and then we visited different Mosques and Jin Palli. After that, we came to Makkah. While going there, my father put on Ihram clothing and I wore new clothes. We saw Ka'bah Sharif and Safa-Marwa at Masjid al-Haram and it was really beautiful! I performed Tawaf and Sa'ee with my father there. We saw the Clock Tower. We returned after celebrating Eid ul Fitr. It was a peaceful experience for my family. I want to go back to Makkah again and again.

A Trip to London

Naira Jawahir Adira
Class II

Last month, I went on a trip to London with my parents. It was a great family time. We stayed there in a hotel. On the first day, we got ready to take the first walk to see London. We enjoyed a bus ride also to explore the city. I was very happy to see everything from the upper deck of the bus. We visited Buckingham Palace, the Tower of London, Tower Bridge, and many more. I saw beautiful birds and took pictures with them. The swing at Victoria Park was so much fun. I loved visiting Victoria Park the most. The view from The London Eye was amazing. We had much fun on the train journey. The sweet memory of the trip is still fresh in my mind.

On Your Mark, Get Set... READ!

Ainul Maskura,
Coordinator, Class I

Reading books is crucial since it broadens our knowledge and fosters mental development. It strengthens our ability to imagine and helps us better grasp the world. Reading various books helps us get accustomed to different writing styles and new vocabulary, further developing our desire for reading and writing. Books are incredibly engaging and keep us interested from start to finish, hence reading is deemed an efficient approach to killing boredom.

The lockdowns due to the Corona virus outbreak damaged the young minds of the world irreparably. Students are now glued to their smartphones, playing games and whatnot. Reading books, apart from academic ones, purely out of self-interest is rare. To revive the enthusiasm for reading books, Junior School has planned to organise six book reading competitions in every academic session.

These competitions are intended to encourage Bangla and English book reading. To enhance the interest of our students, colourful and engaging books have been made available in the school library. This has positively affected our young learners since many students visit the library during their break everyday. In addition, teachers prepare PowerPoint slides displaying a glimpse of the variety of books to awaken the students' enthusiasm.

The whole competition is divided into six rounds. The combined marks of the rounds will decide the best performer at the end of the session. This initiative will slowly but surely resuscitate students' passion for reading books and help them gain the necessary reading skills. We are optimistic about the future of our young students and their development into competent beings who will one day take the helm of the world.

Why I Like Vacations

Nuraj Samd Adiyana
Class II

Vacation is my favourite time of the year as I can do everything I enjoy. During that time, I get to learn new things like painting, playing games and spending more time with my family, relatives and friends. I get to visit my grandparents with all of my cousins. We have so much fun! My grandmother is an excellent cook. She always makes delicious dishes for us every time we visit. We play hide and seek and tag. All these good times make my vacation days most enjoyable.

Lily and Tom

Aaira Ahmed
Class II

A long time ago, there lived a cat named Lily. She was cute and smart. Tom was her brother. One day their mother was going to get some milk, and she said, "Be safe because the dog may come and get you." "Okay, Mom," they said.

Their Mother went out, and the dog saw. He knocked on the door and said, "Open the door. Mom is back with milk." He said it with a funny voice. Smart Lily said, "No, you are not our mom. Go away!"

The dog went to his magician friend and said, "Can you give me some magical voice? I will give it back again. I want to catch a cat." His friend agreed.

"Open the door. Mom is back with milk," he sounded different this time. But Lily was smart, and she checked through the

window. She shouted, "Just go away, you liar!"

He went to his friend again and requested, "Can you give me a dress and a mask to look like a cat?" Now he was ready to fool them. Sadly, Tom answered the door. He thought it was their mother. The dog caught him when he opened the door. He was holding him in the mouth and looking for Lily. She ran up to the chimney and was hiding. The dog searched everywhere. Suddenly, he saw Lily's tail. When he tried to climb the chimney, he slipped because he was holding Tom in the mouth. He put down Tom to reach Lily. At that moment, their mother came and chased the dog. The dog ran and jumped into a pond to save himself. That day he promised he would never go to Lily's house again.

My Outing Day

Fatima Afraima Siddiquee
Class II

It is our outing day today! I was very eager for this fantastic day. We will play and have fun with all my friends. I do not know which rides I am going to enjoy. But I know it's going to be so much fun. We will go to the zoo also. We will see many types of animals. We will sing beautiful songs. Our teachers will stay with us, so we do not get lost. We will sit together and have lunch. The day will be full of fun.

Take 1 and $\frac{1}{2}$ table spoon of baking soda in the glass jar.

Step 2

Add the vegetable oil to the baking soda in the glass jar. Fill the jar almost to the top.

Step 3:

Take 4 table spoon of vinegar in the glass

Step 4:

Add 5 drops of the food colour in the glass and mix up with vinegar.

Equipments:

- 1.A glass jar
- 2.A glass
- 3.Vinegar
- 4.Vegetable oil
- 5.Baking soda
- 6.Food colour
- 7.LED light/ phone torch

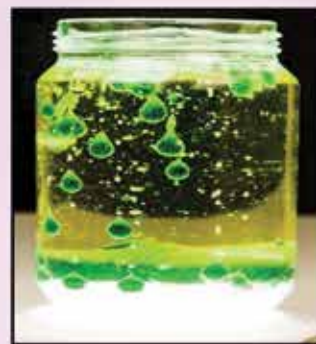

Step 5:

Turn on the LED light (or phone torch) and put it on the table. Then place the glass jar on the light.

Step 6:

Now pour the mixture of food colour and vinegar into the glass jar.

Results:

Following the steps your Lava Lamp is ready to glow!

We Mourn

Presidency Family expresses deepest condolence at the saddest demises of Md. Salauddin, Security Guard, Senior School and the father of Mr. Niladri Chakraborty (Dept. of Mathematics) Kiriti Chakraborty.

May their departed souls rest in eternal peace. Let's pray for their bereaved families to have the courage to endure the irreparable loss.
